<b>Office Action Summary</b>	<b>Application No.</b> 10/523,317	<b>Applicant(s)</b> TAKAMURA ET AL.	
	<b>Examiner</b> James R. Brittain	<b>Art Unit</b> 3677	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation “therein, is the” (claim 1, line 11) is incomplete and unclear in context, thereby rendering claim 1 and the dependent claims indefinite.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 7-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Candotti (US 5575043).

Candotti (Figures 1-6) teaches button structure with a polygonal shaft 15 placed in the cylindrical neck 12b and the tapered portion 12c is crimped inwardly. The tack holds the button to the fabric. The shaft 15 protrudes outwardly from the crimped portion 12c. As to claim 8, insofar as the shaft is polygonal it defines gaps along the faces away from the corners of the shaft that would read on the claim construction. In regard to claim 9, figure 3 shows tread 20 with a specified angular space and protrusions 26 and an annular rim on the head of the tack.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6 rejected under 35 U.S.C. 103(a) as being unpatentable over Candotti (US 5575043).

Candotti (Figures 1-6) teaches button structure with a polygonal shaft 15 placed in the cylindrical neck 12b and the tapered portion 12c is crimped inwardly. The tack holds the button to the fabric. The shaft 15 protrudes outwardly from the crimped portion 12c. The difference is that the shaft has only four sides, not five. The use of five sides rather than four would have been an obvious extension of the teachings of Candotti wherein the corners of the shaft are desirably engaged by the crimped circular portion 12c.

***Allowable Subject Matter***

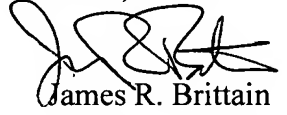

Claims 2-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Brittain whose telephone number is (571) 272-7065. The examiner can normally be reached on M-F 5:30-2:00.
